Browse a cleaner Internet

*Optenet Security Suite PC is a security program
designed to offer safe Internet browsing.*

The Internet is full of threats to those who are most vulnerable. Because it is so easy to access undesirable content involuntarily, there is a real risk of exposure.

Optenet Security Suite is an easy-to-install program that helps to prevent intentional or accidental access to unsuitable online content.

It allows you to set **browsing schedules, restrict file downloading and control P2P applications** (Kazaa, eMule, Gnutella, etc.). **Your PC is protected** by the best **antivirus and antispyware** technology available.

Optenet Security Suite requires no technical knowledge. It is designed so that you do not have to configure the solution. **Just install it and it's ready to go!** Nevertheless, there are many features for advanced users, such as personal lists, different user profiles, etc.

Additionally, on-screen help is available at any time.

Functionalities

Optenet Security Suite PC is designed to offer safer Internet browsing, with the highest levels of security and protection thanks to antivirus, antispymware and firewall technology.
